

TV 20/20 Advance Traders Quick Start Guide

The TV 20/20 Quick start guide is for advanced traders that want to use the basic functionality of the Planning, Execution, and Management of trades and minimal performance analysis features.

1. Open the Trader Vision 20/20 application and Select the Setup tab.
2. Click on the Accounts tab.
3. Click on New Account and provide the application with the following information as a minimum:
 - a. Current Account Value
 - b. Comparison Index ETF
 - c. Commissions per your broker
 - d. Defaults
4. Click on the Save Setup button.
5. Click on the Long Patterns subtab.

Note: Entering the Long patterns that you trade is required if you want to be provided any performance information on long patterns. You can disable all long patterns by clicking the Archive button and Skip to step 7. For more information see the applicable section the Trader Vision 20/20 user manual.

6. Enter the patterns you trade when going Long and click on the Save Setup button.
7. Click on the Short Patterns Subtab.

Note: Entering the Short patterns that you trade is required if you want to be provided any performance information on short patterns. You can disable all short patterns by clicking the Archive button and skip to Step 9. For more information see the applicable section the Trader Vision 20/20 user manual.

8. Enter the patterns you trade when going Short and click on the Save Setup button.
9. Click on the Market Bias - Short Term subtab.

Note: Entering the Market Bias – Short Term is required if you want to be provided any warning or performance information on Market Biases. You can disable all Market Bias – Short Term by clicking the Archive button and skip to Step 11. For more information see the applicable section the Trader Vision 20/20 user manual.

10. Enter Short Term market biases and the respective risks, click on the Save Setup button.
11. Click on the Market Bias - Long Term subtab.

Note: Entering the Market Bias – Long Term is required if you want to be provided any warnings during trade planning or entry or any performance information on Market Biases. You can disable all Market Bias – Short Term by clicking the Archive button and skip to Step 13. For more information see the applicable section the Trader Vision 20/20 user manual.

12. Enter Long Term market biases and the respective risks, click on the Save Setup button.
13. Click on the Candle Signals subtab.

Note: Entering the Candle Signals that you trade is required if you want to be provided any warnings when entering a trade or performance information on candle signals. You can disable all Candle Signals by clicking the Archive button and skip to Step 15. For more information see the applicable section the Trader Vision 20/20 user manual.

14. Enter Candle Signals and the respective risks, click on the Save Setup button.
15. Click on the Application subtab.
16. Under configuration options, Click on the Set Password button, then click on Set, if not go to step 17
17. Check the appropriate share calculation method that you desire.
18. Select the application colors you desire or take the defaults
19. Click on the Save Setup button to save the setup. The application is ready for use.
20. Setting goals is the next step in the use of Trader Vision 20/20.
21. Then you are ready to plan, execute and manage trades!

Note: if you have not used any of the optional features of the tool, be aware that some reports will not populate with information. Also if you didn't use Market Biases, or Candle Signals, then you can skip over those elements of the Trade View.
